PROJECT APPROACH

Safety

Form Direct recognises its moral and legal responsibility to provide a safe and healthy work environment for employees, contractors, customers and visitors. This commitment extends to ensuring that the organisation's operations do not place the local community at risk of injury, illness or property damage.

In addition to the above Form Direct recognises the need to ensure that all products it sources and supplies to its customers meet these same ideals.

Quality

Form Direct (FD) is committed to fulfilling its customer's requirements by providing efficient, effective and innovative quality assured project delivery within time, budget and specifications.

FD will liaise closely with each client to establish the client's perception of performance and implement improvements where appropriate with the aim of enhancing their satisfaction.

Environmental

Form Direct will comply with all relevant Acts and Regulations to ensure that the workplace is safe of risks to health or the environment.

Form Direct managers are to ensure that the environmental policy is effectively implemented in their areas of control. All employees will be held accountable for their specific responsibilities to adhere to this policy.

Form Direct is aware of the need to minimise the impact of its operations on the environment and has implemented a systematic management approach to controlling waste and minimising pollution of the environment.
